Category:	LSA						
Total Time:	4,970		Overhaul Time:	358.4		Type:	FWSE
Location:	Greenup, Kentucky			Contact Person:	MATT HUTTON		

Information for Spec Sheet:

Description:

The Piper J-3 Cub is an American light aircraft that was built by Piper Aircraft. The aircraft has a simple, lightweight design which gives it good low-speed handling properties and short-field performance. The Cub is Piper Aircraft's most-produced model, with nearly 20,000 built in the United States. Its simplicity, affordability and popularity invokes comparisons to the Ford Model T automobile.

The J-3 is a two-seat, single-engine, high-wing monoplane with a conventional landing gear. This particular example is powered by an upgraded 90HP engine. It has no electric power just like it came from the factory. Enjoy flying like you were still in the golden era of aviation.

The J-3 Cub was originally designed as a basic trainer aircraft, but it quickly became popular as a recreational aircraft. It is known for its easy handling and forgiving nature, making it a great choice for first-time pilots.

Bullet Points:

- 9/10 interior and exterior
- Beautiful period correct J3 Cub
- No Electric System
- Upgraded 90HP engine
- Glass is in good condition

Airframe:

1946 J3C-65 Cub

Recovered and refurb April 2003

TT 4,970

Engine:

Continental C-90-8F 90HP

TT 1102.3

TSMOH 358.4

MOH September 2000

Prop:

245.5 SMOH

Metal Fixed Pitch Prop

Avionics:

Airspeed, RPM, Compass, Altimeter, Oil Pressure & Temperature

Additional Features:

No Electric System
