FOR SALE - \$1,700,000

Highlights:

- World's Most Advanced Single Engine Turbine Heli
- Like New
- Large cabin with ample legroom and headroom for passenger comfort

Description:

This 2023 Bell 505 is like new and ready to fly. It's the world's most advanced short light single helicopter, built for speed, performance, and easy handling. The high-tech flight deck makes flying simple and fun, while the reliable drivetrain and rotor system give you confidence every time you lift off. Inside, the large cabin offers plenty of legroom and headroom for comfort on every trip - all in a cost-competitive, top-performing helicopter.
