2019 Gulfstream G280 SN 2177 N826SC

Entered Into Service: August 22, 2019

The G280 is known for its impressive range and efficiency, allowing travelers to reach remote destinations efficiently. It's designed to handle both long-range flights and short-range operations effectively, making it versatile for various types of travel needs. Equipped with whisper-quiet engines and sleeping accommodations for up to five passengers, restorative rest is a given. The cabin provides 100% fresh air, natural light from 19 large oval windows.

The Enhanced Flight Vision System (EFVS) allows authorized pilots to land without natural vision in low visibility conditions, increasing access to airports and reducing go-arounds. Synthetic Vision Primary Flight Display featuring 3D graphics of terrain and runways, further boosts pilots' situational awareness.

Excellent airfield performance means it can operate from smaller, less congested airfields, bringing passengers closer to their final destinations without compromising on performance, even in challenging conditions like hot and high-elevation environments.

Performance

Speed Mach 0.85 / 652 mph
Max Range..... 3,600 nm
Fuel Burn..... 281 Gal / Hour
Takeoff Distance..... 4,750 ft.
Max Cruise Altitude..... 45,000 ft.
