Interior:

New Interior February 2018 by Dassault-Little Rock

This beautiful fifteen (15) passenger interior features elegant seating inspired by BMW Designworks styling used in Falcon 7X & 8X aircraft.

Complete refurbishment included the addition of the Aearo Technologies (EAR) Thermal Acoustic Interior. EAR takes cabin comfort to new heights offering supreme noise control providing the ultimate atmosphere for productivity and relaxation.

All soft goods, plating and wood veneer were replaced throughout the aircraft from the cockpit through the aft baggage. The upgraded main entry door acoustical curtain is equipped with a magnetic latching system.

Cabin configuration features four club chairs in the forward cabin, with two foldout executive tables. The mid cabin zone has the same four club chair arrangement, also with two foldout executive tables. The aft cabin is separated by a cabin divider and boasts a left hand three-place divan opposite a four-place divan (installed in 2018) on the right. The club chairs, as well as the aft divans, are all berthable for inflight sleeping comfort.

Amenities include a forward crew lavatory with an electric flushing toilet and a folding jump seat in the cockpit that is certified for takeoff and landing. The 36" forward galley on the right and an accompanying aux galley on the left house a high temp oven, galley sink with hot & cold water, ice / drink / food storage, microwave oven, closet, and entertainment cabinet. The aft cabin features a full-size passenger lavatory with electric flushing toilet, sink and storage.

Exterior:

New Paint December 2023 by West Star Aviation-Grand Junction
