Buying and selling a personal or corporate aircraft can be an overwhelming process. It requires a thorough understanding of market conditions, aircraft availability, costs, maintenance expectations, and the documentation required to pass a clear title from one entity to another. Since 1967, clients have sought to partner with Eagle Aviation. Through the years we have assembled a team of aircraft sales, research and support personnel who devote all of their time making certain they are in constant contact with the world market. Eagle has worked hard to become a leader in pre-owned aircraft sales and we would love to partner with you on your next aircraft journey.

EAGLE AVIATION IS AN ACCREDITED DEALER WITH IADA

The International Aircraft Dealers Association is a professional association of aircraft dealers, brokers, and business aviation support service companies that conduct business in more than 100 countries.

The association began in 1991, when eight of the country's leading aircraft dealers determined that aircraft buyers and sellers desired the highest level of ethics, experience, standards, and trust in their transactions. The organization later established a rigorous accreditation process to complement its 14-point code of ethics that guarantees they will always conduct themselves honorably and represent the best interests of their clients.

Today, fewer than 7 percent of the 730 aircraft dealers worldwide have earned this prestigious accreditation from IADA, which continues its constant presence around the world and international expertise in pre-owned aircraft sales.

"This current market for business aircraft certainly provided challenges! Your professionalism, knowledge, and industry experience were keys to the recent sale of our Sovereign. Might I also add that your people skills (including a delightful sense of humor) were much appreciated." Terry S.
