2005 GULFSTREAM G550

SERIAL NUMBER 5056

ULTRA-LONG-RANGE WITH SPACE FOR EVERYONE

The award winning G550 sets the standard for large cabin, ultra-long-range travel, along with Gulfstream's unmatched client experience and product support.

The G550 packages a superlative blend of modern performance, economics, and unparalleled passenger comfort and technology- a stand out in the ultra-long-range business aircraft segment. The cabin's elegant 50-foot main cabin environment is intelligently arranged for work or rest, with a spacious galley, private lavatories, and an in-flight accessible, walk-in, cavernous aft baggage bay.

The Rolls-Royce BMW engines drive the G550 more than 6500 miles at Mach .80. For legs less than 5000 NM, the airplane flies at a high-speed cruise of .85 Mach. The G550 can remain airborne for an impressive 12+ hours.

The cockpit is Gulfstream's advanced Planeview Avionics Suite with four large flat panel flight displays, featuring improved situational awareness with standard HUD/EVS, and redundant satellite and inertial long-range navigation systems.

The G550 is a remarkable blend of elegant design, modern technology, and unparalleled passenger comfort.
