**2007 CESSNA CITATION XLS**

SERIAL NUMBER 560-5729

# PROVEN PERFORMANCE WITH OVER 1000 IN SERVICE

Cessna's talent for evolving a new market segment where it previously didn't exist, lives on with the Citation XLS.

The XLS uniquely fits a space where operating economics meet short runway performance and a comfortable, stand-up midsize cabin with seating for 8-9, private aft lav, a large 80 cu. Ft. external baggage bay, forward galley, and LED interior lighting.

The XLS's Pratt and Whitney -545B engines, with 4,095 lbs of thrust apiece, propel the airplane along at 425 knots at FL430. At FL450, the cabin maintains a comfortable cabin altitude of 6,800 feet. The unswept supercritical airfoil conquers shorter runways with ease- producing a balanced field length of 3812 feet at sea level. With a range of 1500-1800 NM, the XLS is a one stop airplane coast to coast.

Honeywell Primus 1000 EPIC avionics featuring a trio of 8x10 inch electronic flight displays, a full complement of modern avionics including dual Universal Flight Management Systems and the latest navigation and safety components make the XLS the complete package for intermediate range trips and access to smaller airports when needed.
