EBROCHURE

THE IDEAL COMBINATION

Modern Comfort, Speed, Range and Efficiency

The Gulfstream G280 is an aircraft so powerful and aerodynamic it redefines the performance and capabilities of super-midsize business aircraft.

Enhancements in design from the formidable G200 predecessor, include a freshly designed highly efficient wing, new high-thrust engines from Honeywell, a state of the art cockpit, and the quietest most comfortable cabin in its class. The G280 flies at a maximum operating Mach of 0.85, but even at a long-range cruise of Mach 0.80, the G280 is miles ahead of other midsize business aircraft.

Capable of a 3600 NM range, the aircraft boasts impressive city pairs such as New York to Los Angeles in five hours, Washington, D.C., to Geneva in 7 hours, 47 minutes or Paris to White Plains, New York, in 7 hours, 40 minutes. The Gulfstream G280 has established itself as the super-midsize class leader in performance and economy.
