A LONE MOUNTAIN AIRCRAFT COMPANY

2008 RANS | S-7LS

The 2008 Rans S-7LS is a well maintained, one-owner aircraft purchased from factory, with exceptional build quality and attention to detail. It was purchased new by its current owner and kept in a heated hangar its entire life. N286RD is light, responsive, and an absolute joy to fly—perfect for backcountry adventures or relaxed evening flights. The reason for selling is that the owner now has another airplane and simply isn't flying this one enough, making it an excellent opportunity for someone looking for a dependable Rans S-7LS.
