2019 EMBRAER PRAETOR 500 (N810PG)
S/N 55010049

**SPEC
SHEET**

The Praetor 500 is a lite, super mid-size jet with main-cabin seating for up to 8 passengers. With full fly-by-wire technology, the jet features a whisper-quiet cabin, range to connect any two cities in the US at 3,300 nautical miles, and superb runway performance. This well-maintained Praetor is low-time with a modern interior inclusive of many cabin comfort upgrades; seats with footrests, largest available monitor, satcom and Swift broadband internet. Enjoy added peace of mind with additional avionics over and above Embraer's standard as well as enhanced oxygen and cargo fire suppression. If familiar only with other super-midsize aircraft, do feel free to call and ask any questions about the Praetor's differentiation. We are happy to provide comparisons.

ADDITIONAL INFORMATION

Seller would prefer to enjoy the plane again if a Central US-based operator would place the jet on charter certificate or allow for a limited dry lease. The plane's Chief Pilot is willing to continue flying on a permanent or contract basis.

Design renderings are for illustrative purposes only. Formal photos are forthcoming.
