If you're looking for a stress-free ownership experience and an aircraft with some fantastic upgrades then this is the G5 for you. N938AC is supplied with fresh line cutters and CAPS repack meaning it will have minimal scheduled maintenance costs (and headaches!) going forward. It also boasts a 2019 overhauled engine with 425 hours and some great upgrades including the Surefly electronic ignition system. The EU/UK VAT paid status presents huge value for a European buyer. Embark training available for owner pilots who qualify.
