PHENOM 100EV

D-ISOV

SN EMB-50000437

PHENOM 100EV

This 2023 Phenom 100EV is configured for use in the U.S. and Europe. With low flight hours, this professionally flown head-turner has always been hangared, ensuring it remains in excellent condition. Fully enrolled on CAMP for comprehensive maintenance tracking, this aircraft is single-pilot capable and features the advanced Prodigy Touch G3000 Integrated Flight Deck, equipped with High-Frequency (HF) and Selective Calling (SELCAL) radio for enhanced communication. With worldwide delivery options and flexible re-registration to suit your needs, the Phenom 100EV perfectly blends luxury, performance, and practicality.
