

Lone Mountain Aircraft is excited to present this incredibly upgraded SR22 G2. With a Garmin G500TXI panel that will rival many corporate jets this is a unique opportunity to move into an aircraft that has some remarkable capabilities. The touchscreen panels give crystal clear PFD/MFD capabilities including engine monitoring. It also boasts an upgraded autopilot, inflight weather, texting and calls via Iridium and enough USB chargers to keep you and your passengers entertained no matter how long the flight. On top of its outstanding panel upgrades,

2004 CIRRUS SR22 G2 (N322CW)
S/N 1098

SPEC SHEET

888-LONEMTN (566-3686)

this wonderful aircraft benefits from a recent CAPS repack and, with only 610 hours on the engine and 180 hours on the prop, it still has plenty of flying left to give! Delivery to anywhere in the contiguous US included in price. Transition Training is included in the purchase of this aircraft through Cirrus Embark Program for eligible pilots.

FAST FACTS
