2012 CIRRUS SR20 G3 (N881PF) S/N 2155

S P E C S H E E T

Lone Mountain Aircraft is pleased to offer N881PF – ready for the next adventure! A fresh November 2025 Annual makes this Garmin Perspective SR20 ready to take advantage of newly passed tax savings for a potential 100% Depreciation in year 1! A factory remanufactured engine was installed in September 2020 and will provide time for good flying to come. CAPS is next due in 2032! CAPS Line Cutters were just done by Canada West Avionics in November 2025. The Garmin Perspective avionics are tied to the powerful Garmin GFC700 autopilot that includes Electronic Stability & Protection. You will also enjoy Synthetic Vision Technology, XM Weather/Audio, Electronic Charts, Active Garmin Traffic and more! Fly comfortably around the country with factory installed Air Conditioning. N881PF suffered a runway excursion in Washington in 2022 and has since had Cirrus sign the aircraft off for return to service with a RH MLG repair and wing-work done.

Additional photos and full logbook scans are available upon request. Transition Training is included in the purchase of this aircraft through Cirrus Embark Program for Eligible Pilots!

Low rates and flexible term financing is available, so call Lone Mountain Aircraft today at 1-888-566-3686 to learn more about this and any of our other Cirrus Aircraft available for sale!
