## 2021 Diamond DA50 RG (G-DOGA) S/N 50-014

S P E C S H E E T

Lone Mountain Aircraft is pleased to offer this Diamond DA50 RG that delivers an exceptional combination of performance, efficiency and comfort. Powered by the 300-hp Continental CD-300 Jet-A turbo-diesel and equipped with advanced Garmin G1000 NXi avionics, G-DOGA offers modern technology, a spacious five-seat cabin, and the sleek efficiency of retractable landing gear. Aircraft will be delivered with a fresh annual inspection.

With only 530 total hours since new, this aircraft presents as a highly desirable, late-generation single-engine platform ideal for business travel, touring, or owner-operators transitioning into a modern high-performance composite aircraft. The DA50's quiet cabin, fuel economy, and excellent handling characteristics make it one of the most compelling new-generation piston aircraft on the market.

Will accept part-exchange for the right aircraft.

### FAST FACTS

Only 530 Hours since new, delivered with fresh annual inspection
