2004 | CESSNA, CITATION ENCORE

2004 Cessna Citation Encore, S/N 560-0663, N357BE, represents a rare opportunity to acquire a true single-operator, corporately flown aircraft since new. With 7,782.4 hours total time and fully tracked on CESCO, this Encore reflects consistent Part 91 corporate stewardship. The Encore is a proven light jet design, highly regarded for its exceptional payload-range balance, short-field capability, and straightforward systems architecture. The engines recently completed a fresh Hot Section Inspection, positioning the aircraft for extended operation without a near-term major engine event. Well-equipped with the Honeywell Primus 1000 suite, dual Garmin GTN 750s, and ADS-B Out. This is a turnkey, professionally operated Encore with the pedigree and maintenance posture buyers seek in today's market.
