2005 CIRRUS SR22 G2 (N679LM) S/N 1679

S P E C S H E E T

Lone Mountain Aircraft is pleased to offer N679LM, a nicely upgraded G2 that will turn heads on the ramp! 9LM has been refurbished entirely inside and out and has the feel of a Carbon G5 SR22. After a ground damage incident in 2020, the aircraft was thoroughly repaired, engine and prop overhauled along with associated accessories and upgraded paint and interior. The aircraft had another ground incident in late 2025 where debris flew up in a storm on the ramp and impacted the left side of the fuselage and left wing - a composite and paint repair was performed and the aircraft returned to service. Many additional photos and log scans are available upon request.

Transition Training is included in the purchase of this aircraft through Cirrus Embark Program for Eligible Pilots!

Low rates and flexible term financing is available, so call Lone Mountain Aircraft today at 1-888-566-3686 to learn more about this and any of our other Cirrus Aircraft available for sale!
